

Glittery Stars

Remember: These instructions are just guidelines. You are always encouraged to use your Imagination and make what feels right to you!

All you need are 2 pipe cleaner and some beads. Glittery pipe cleaners will enhance the look.

Cut each pipe cleaner in half. Take two halves to form an even cross and twist together.

Then take the two other pieces and twist onto the cross, one by one.

You should have a star or snowflakes shaped object.

String a few beads onto Each arm of the star.

Bend the top part of the star over a loop of string and you are ready to hang your star on a tree or in a window.
