

Winter Snow Drawings

Remember: These instructions are just guidelines. You are always encouraged to use your Imagination and make what feels right to you!

All you need is some dark construction paper and some chalk (white or colored).

This is a very open ended art activity.

Even very young children will benefit from this activity.

The light chalk and dark paper provides a very different visual experience. Chalk on construction paper also provides great sensory feedback because of the resistance that chalk on paper will provide.
